

## NEW MODEL 3354 SINGLE WHEEL SLITTER

***"Like Having A Portable Squaring Shear"***

***Designed for on-site use yet equally at home in the industrial environment, this rugged rotary shear is something no one cutting sheet stock should be without.***

***The slitter is capable of shearing strips anywhere from 1" to 24" wide from any size parent sheet with no limitation on length.***

***Simple operation: Move pointer to the desired width of cut, lock in place with hand knobs, switch on and feed material - no tools required***

***Designed for 16ga. mild steel or lighter, will also cut aluminum, stainless, and a variety of non-metallic materials with ease.***

### **Standard features include:**

- ⊕ Die-set type gauge mounting that insures easy setting and consistent squareness
- ⊕ Gauge mounting rods are extended to provide convenient carrying handles
- ⊕ Gauge is easily removed for machine transport and re-installed with no resquaring
- ⊕ Slitter knives are proven GARY "Quickset" design manufactured from toolsteel
- ⊕ Knives are outboard mounted for easy access
- ⊕ Knives are "reversible", intervals between sharpening is double that of a single edge knives
- ⊕ "Adiprene" stripper rings are non-marking and serve to hold the material flat reducing twist
- ⊕ Drive shafts mounted with precision relubricable sealed ball bearings
- ⊕ Dual bearings mounted at knife end to minimize deflection and increase knife life
- ⊕ Heavy duty roller chain drive powered by 1/3 HP gearmotor
- ⊕ Standard 110 volt with grounded plug. Requires less than 6 amps

***The affordable  
GARY SLITTER ....  
Don't settle for anything less!***

***Contact your machinery dealer and ask him for a demonstration. If you don't have a dealer or supplier in your area feel free to contact us direct. We'll be glad to answer any questions you may have.***

*Shown with optional leg kit*
