

YOUTH EXCHANGE – AN OPPORTUNITY FOR STUDENTS AND LIONS TO SHARE

Texas has a great opportunity facing us to further International cooperation & understanding through Lions Youth Exchange. each summer we have students come to Texas to share our culture and to understand our life style. Some of these students have never visited this country so it most likely is quite a culture shock to them upon first sight.

Students hail from Finland, Sweden, Norway, Greenland, Denmark, United Kingdom, Germany, Belgium, France, Austria, Russia, Spain, Italy, Singapore, Japan, Australia, New Zealand and more. These Youth Exchange students are here for about six weeks, and your district chairperson is looking for a few good homes to have the young people hosted for a few weeks. We also have a winter program which runs from thanksgiving until the first week in January for hosting as well. Another opportunity in for us is one where our Texas students can visit another country we deal with for a similar exchange. To hear more about this program and more contact your club / District chairperson. If you cannot find a chairperson in your area contact your Governor or myself. Keep watching this newsletter for new data.
